

Tagan Series **EP-TG480-U22**

- **ATX 12V 1.3 to 2.0 manual switch**, allow user fit V1.3 high power demand motherboards or V2.0 compatible boards
- **2 patented EMI filtered PCI Express VGA power lead** for high end gaming video cards
- **Patented ATX 20+4 and 4+4 slide-in socket** for PCIe, Intel Pentium 4, server & AMD boards
- **4 Serial ATA power leads** for SATA hard disks
- **SDFP**: Scan Disk Free Protection prevent data lost.
- **Gold-plated** connector for more stable outputs
- **Twisted Output-cables** reduce EMI
- **TSCT**: Tagan Silence Control Technology operation of 21-22dBA at 60% load.
- **Grounding Cable** provide extra protection
- CE, UL, CB, FCC certified
- **3 years** limited warranty

Model	TG-480-U22						
AC Input	115/230VAC 10/6A 60/50 Hz						
DC Output	+3.3V	+5V	+12V ₁	+12V ₂	-12V	-5V	+5VSB
Max Output Current	28A	48A	20A	20A	1.0A	0.8A	2.5A
			30A (V ₁ + V ₂)				
Max Combine Power	240W		360W		12W	4W	12.5W
	460W			28W			
Total Power	480W						

- **Patented ATX 12V 2.01 and 1.3 manual conversion switch.**

- **Patented 20 to 24 pin slide-in connector for PCIe and all other boards.**

- **Patented Dual EMI filtered PCIe VGA power lead for high end VGA cards.**

- **4 Serial ATA cables for SATA hard drive power demand.**
